EXPERIENCE

Student Software Developer / Berkeley Coding Bootcamp / Berkeley, CA / Oct 2021 - Current

Intensive software development program covering full stack fundamentals such as programming languages, libraries, cloud platforms, APIs, development frameworks. Exhaustive, hands-on experience in HTML5, CSS3, JavaScript, jQuery, Heroku, Git, Database Theory, Object-Oriented Programming, Pair Programming, React, MongoDB, Node.js, Express.js, and GraphQL. The Program emphasized hard skills as well as development in collaboration with other teammates.

- Led two teams of four in the technical design and development of two web applications:
- Built a full stack messaging app with Node, Express, Sequelize, and MySQL
- Built a front end website using REST API and local storage

Design Lead & Artist / Openmysesame / SF Bay Area / Aug 2019 - Current

Developed and photographed three product collections of artwork integrating design motifs for retail apparel and shipment within the continental US

- Built and maintained an online shopping portal via Squarespace and Shopify
- Communicated with three screen printing vendors on print quality and production, and fulfilled and shipped orders

Clinical Supervisor, BCBA / Animate Behavior / SF Bay Area / Sep 2015 – Aug 2019

Supervised up to five case managers at any given time with a caseload of up to 15 clients across 12 cities in Alameda and Contra Costa counties. Provided behavioral intervention services to parents of children with developmental disabilities or delays:

- Cultivated five case managers into clinical supervising positions and managed a total of 15 case managers during tenure
- Directed teams of up to four staff per case on creating treatment plans and training staff and parents on plan implementation
- Presented medical necessity to insurance carriers based on initial intake and functional behavior assessments
- Managed caseloads totaling up to 130 hours monthly including navigating fluctuations of healthcare provider requirements. Such as age dependent progress reports, number of clinically recommended hours versus authorized hours.
- Developed treatment modifications rooted in data-based decisions
- Led difficult conversations with caregivers to garner buy-in for intensive but necessary treatment plans
- Organized billing and time sheets according to proper billing procedures
- Consistently praised on quality of progress reports and designed a note taking workflow implemented company-wide
- In the first year: Hired as Case Manager and promoted with three months

Case Specialist / Intercare Therapy / SF Bay Area / Feb 2013 - Aug 2015

Managed up to 20 cases monthly across 12 cities in Alameda and Contra Costa counties:

- Served as Lead Interventionist and quickly transitioned to Case Specialist within the first year
- Developed excel-based data analysis template adopted company-wide
- Created treatment plans targeting up to 35 behavioral goals for each client
- Conducted monthly meetings with interventionists and parents of clients to discuss data and progress and led training of new procedures and best practices
- In the first year: Hired as Lead Behavior Interventionist and promoted within six months
